

Ian Stolz

JUNIOR SOFTWARE
DEVELOPER

Description

I am a Junior Software Developer in the final year of obtaining my BSc Information Technology degree. Hard working, creative and ambitious is how I'll describe myself. I will bring my skill in development and design to all projects while also improving my skillset and obtaining new knowledge.

Work Experiences

2024 Energy Management Efficient Specialists

Wordpress Development

I am working part-time on developing an ISO Integrated Management System with business processes to be hosted as a website. I gained experience on how to manage a website and how to effectively implement requirements set by Management.
