Ian Stolz

7 Camelia Ave, Doringkruin, Klerksdorp • (076) 309-1730 • stolz.ian@outlook.com

I am **a Junior Software Developer** in the final year of obtaining my BSc Information Technology degree. Hard working, creative and ambitious is how I'll describe myself. I will bring my skill in development and design to all projects while also improving my skillset and obtaining new knowledge.

Experience

NOVEMBER 2023 – PRESENT
Wordpress Development | Energy Management Efficient Specialists© | Johannesburg, South Africa

I am working part-time on designing an Integrated Management System for ISO procedures to be hosted as a website. Wordpress is used, as there are many constant changes throughout the system that's going to be done by people with little-to-no programming experience.
What I have learned:
>   - Continuously managing a website
>   - Understanding the requirements management set out for me

Skills

• Coding • UI Design • Quick learner • Team player • Eye for detail • Time management • Conflict management • Public speaking • Proficient in Excel • Proficient with CMS software
Programming Languages:
>   Proficient in: C#, html
>   Knowledgeable in: Java , css, python
>   Worked in: c++, JavaScript

Education
