

Ian Stolz

SYSTEMS DESIGNER
AND SUPPORT

About Me

I am an IT Specialist who uses any tool at my disposal to create the best possible solution. The belief I hold is to work smart and be creative, as this is the recipe in developing optimised solutions.
In every project I always learn and build upon the knowledge and skills I possess to ensure quality work will be delivered.

Work Experience

2024 - Present **Energy Management Efficient Specialists**

Software Development and Tech Support

For the company, I have created a lightweight IMS (Integrated Management System) on WordPress that is easy to maintain and cost effective for our customers.
I give assistance to any technological needs the organisation have, and work on different systems and programs to reach the desired outcome.
I am available to assist customers with their technological and IMS needs.
